

Grappa di Moscato

This grappa with its distinct fragrance is obtained from the painstaking distillation of skilfully selected Moscato marc in our company's batch still. The olfactory sensations of fruitiness and freshness which distinguish this young grappa perfectly recall the most fragrant of vines; on analysis by the palate the grappa comes forth as candid, balanced and smooth, just as a Moscato grappa must be.

*Alcohol Content: 40% vol.
Package: 70 cl. bottle*
